

Project Demo Planning

Date	5 July 2026
Team ID	
Project Name	Rising Waters
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objective and problem statement.	1	Team Member 1
2	Dataset & Model	Explain the dataset, preprocessing and Random Forest model.	2	Team Member 1
3	Website Demonstration	Demonstrate the homepage and input weather parameters.	2	Team Member 1
4	Live Prediction	Show flood prediction results for sample inputs.	2	Team Member 1
5	Project Features	Explain implemented features, accuracy and technologies used.	1	Team Member 1
6	Conclusion	Summarise the project and answer questions.	2	Team Member 1

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the need for early flood prediction and project objectives.
2	Solution Overview	Describe the dataset, machine learning model, Flask application and technologies used.
3	Live Feature Demonstration	Demonstrate entering weather parameters and displaying prediction results.
4	Q&A Session	Answer questions related to the project, model and future enhancements.
