

Project Initialization and Planning Phase

Date	5 July 2026
Team ID	
Project Name	Rising Waters
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges.

Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS - 1	A disaster management officer monitoring flood-prone regions.	Predict flood risk early and issue timely warnings to protect people and property.	Traditional flood forecasting methods are often inaccurate or delayed.	Existing systems do not effectively use historical weather data and machine learning for early prediction.	Confident that timely flood predictions will improve disaster preparedness and save lives.
