| <b>Project Name</b>  | Rising Waters |
| <b>Maximum Marks</b> | 2 Marks       |

### Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts and feelings, along with process ownership and improvement opportunities at each stage.

| Phase of Journey                                                            | Stage 1                                                                                                                                                                                                                                              | Stage 2                                                                                                                                                                                                                                                         | Stage 3                                                                                                                                                                                                                                      |
|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Actions</b><br><i>What does the customer do?</i>                         | <ul style="list-style-type: none"> <li>•Visits the <b>Rising Waters</b> flood prediction portal.</li> <li>•Review the usage guidelines.</li> <li>•Inputs weather parameters such as rainfall, temperature, humidity and cloud visibility.</li> </ul> | <ul style="list-style-type: none"> <li>•Select the <b>Predict Flood Risk</b> option.</li> <li>•Waits while the machine learning model evaluates the entered weather data.</li> <li>•The system processes the information and generates a prediction.</li> </ul> | <ul style="list-style-type: none"> <li>•Examines the flood prediction result.</li> <li>•Identifies whether the selected area is at risk of flooding.</li> <li>•Enters new weather data to perform another prediction if required.</li> </ul> |
| <b>Touchpoint</b><br><i>What part of the service do they interact with?</i> | <ul style="list-style-type: none"> <li>•Landing Page</li> <li>• User Guidelines</li> <li>• Weather Information Form</li> <li>• Data Entry Fields</li> </ul>                                                                                          | <ul style="list-style-type: none"> <li>•Predict Flood Risk Button</li> <li>• Flask Application Server</li> <li>• Machine Learning Prediction Engine</li> </ul>                                                                                                  | <ul style="list-style-type: none"> <li>•Prediction Results Screen</li> <li>• Flood Risk Status Display</li> <li>• Make Another Prediction Button</li> </ul>                                                                                  |
| <b>Customer Thought</b><br><i>What is the customer thinking?</i>            | <ul style="list-style-type: none"> <li>•Is the flood prediction portal simple to navigate?</li> <li>• Which weather parameters should I provide?</li> <li>• Will the system give a</li> </ul>                                                        | <ul style="list-style-type: none"> <li>•I hope the analysis is completed without delay.</li> <li>• Is the prediction model processing my data correctly?</li> <li>• Waiting for the flood</li> </ul>                                                            | <ul style="list-style-type: none"> <li>•What does this flood prediction indicate?</li> <li>• Can I depend on the accuracy of this result?</li> <li>• Should I test another region or enter different</li> </ul>                              |

|                                                                 | reliable flood prediction?    | risk assessment.                       | weather data?                                                       |
|-----------------------------------------------------------------|-------------------------------|----------------------------------------|---------------------------------------------------------------------|
| <b>Customer Feeling</b><br><i>What is the customer feeling?</i> | Interested, Optimistic, Eager | Hopeful, Slightly Concerned, Expectant | Reassured (Low Flood Risk) or Cautious (High Flood Risk), Confident |

|                                                                |                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                   |
